Chief was a very accomplished dog in the field and show but also in his progeny record. He was dearly loved by many people and greatly feared by his competitors.

A great quote from someone in the gallery that I will never forget as it was my first field trial, "He can eat out of my feed bowl any day." Chief won that day with 4 finds and a spectacular run. This happened a day following Ken killing a dozen birds at the hunt club he is a member of.

Chief had many great attributes and we see them today in his offspring. Thanks for sharing this great dog with the world Ken and Jane!
